CONSULTING SERVICES

EXPERIENCED AND PRACTICAL GUIDANCE THROUGH THE COMPLEX ISSUES FACING TODAY'S BUSINESSES

The challenges facing businesses today are quite different and more sophisticated than at any other time in history, and the pace of change will only increase. Volatile economic conditions, rapidly evolving cyber threats, complex regulatory requirements, data overload and constantly changing technology platforms make business as usual anything but.

The Schneider Downs Consulting team features experienced professionals across a diverse array of specialties, carefully selected to address the most pressing needs of businesses across all industries. Our team of consultants will guide you through solutions to the problems on your radar and help you identify those that aren't.

OUR SERVICES

TECHNOLOGY AND DATA SERVICES

The Schneider Downs Technology Advisory practice provides value-added technology services and solutions that streamline and automate processes, provide data visibility and improve enterprise-wide communication.

Business Process Automation

Our Business Process Automation services provide end-to-end support to your evaluation, implementation, and on-going use of Robotic Process Automation (RPA) technology.

- Automation as a Service
- Automation Development and Deployment
- Automation Vision and Strategy
- Investment Analysis
- Maintenance and Support
- Process Evaluation and Prioritization
- RPA Training

Cloud and IT Consulting

Our Cloud and IT solutions team help clients find software solutions for accounting, fixed assets, distribution, manufacturing, e-commerce, nonprofits, automated workforce management, human resources, payroll, and more.

Cybersecurity

Our Cybersecurity services help organizations to be better prepared against the complex and frequent cyber threats facing businesses today and tomorrow.

- Cybersecurity Consulting as a Service
- Digital Forensics and Incident Response
- Incident Response/Disaster Recovery Plan Development and Testing: Tabletop Exercises
- Network Penetration Testing
- Purple Team Assessments
- Social Engineering and Phishing
- Web Application Penetration Testing

Technology Consulting Services

Our technology consultants can help you evaluate if your business would benefit from or should be protected against changes in technology.

Data Analytics

Our Automation and Data Analytics Process Team harnesses the power of data through proper data management, ETL (extraction, transformation, loading) procedures and data visualization to provide solutions to business problems using the data you are collecting through your source systems and spreadsheets.

- Ad Hoc Data Analysis
- Data Analyst or Data Analytics as a Service
- Data Readiness and Best Practice Consulting
- Data Visualization and Dashboard Design, Development and Implementation
- Data Warehouse Design, Architecture, Implementation and Configuration
- Development and Execution of Data Analytics Strategic Plan
