## Higher Education - US

## Medians - Financial performance diverges among US private universities

Private colleges and universities continue to adapt to a constrained revenue growth environment and produce largely stable median operating cash flows, according to our fiscal 2016 medians. However, there continues to be increasing divergence across the sector with a growing number of small universities in particular confronting increased financial stress.
» Median operating performance is steady, albeit with growing expense pressures. The median operating cash flow margin has remained stable between $14 \%$ and $15 \%$ for five years. However, median expense growth modestly outpaced median revenue growth for the second straight fiscal year, presaging future pressure.
» A growing number of colleges confront more material financial stress. Almost one-third of small colleges generated operating deficits in fiscal 2016, up from $20 \%$ three years ago. In contrast, the proportion of large comprehensive universities generating operating deficits declined to $13 \%$ from $20 \%$ during the last three years.
» Operating reserves relative to expenses declined modestly for second consecutive year. Modest investment losses in fiscal 2016 contributed to a weakening of the spendable cash and investments cushion to expenses to 1.25 times in fiscal 2016 from 1.37 times in fiscal 2015. The median return on cash and investments in fiscal 2016 was -1.8\%.
» Wealth remains highly concentrated. The 20 wealthiest universities consistently account for over $70 \%$ of the total wealth in the sector.
» Debt burden remains generally stable across the sector. Increases in median debt have been modest at just over 3\% annually over the last four years. The median debt to revenue remained in line with prior years at 0.72 times.
» Divergence in capital spending continues. Across the sector, median age of plant increased to 13.3 years in fiscal 2016 from 11.9 years in fiscal 2012. In particular, small colleges with weaker philanthropy and pressured cash flow will continue to struggle to adequately invest in facilities and equipment.

Exhibit 1
Median operating performance remains steady

Moody's calculation of operating cash flow adds back interest, depreciation, and other large non-cash expenses to the annual operating income to derive operating cash available for debt service and other strategic and capital investments.
Source: Moody's Investors Service

Exhibit 2
Approximately one-quarter of all colleges are generating operating deficits

Our annual operating margin differs from the operating cash flow margin primarily because it includes depreciation and interest as operating expenses.
Source: Moody's Investors Service

Median operating performance is stable, albeit with growing expense pressures
» The median operating cash flow margin has remained stable between $14 \%$ and $15 \%$ for five years.
» Median revenue growth also has held fairly steady, in the $3.0 \%-3.5 \%$ range for the past five years.
» After several years of cost containment, expense pressures are increasing. The median increase in expenses was greater than the median increase in revenues across all subsegments - comprehensive, moderate and small - of the sector in fiscal 2016.
» We project 3\%-4\% aggregate growth in revenue and expenses in fiscal 2017 with continued variation across the sector.

A growing number of colleges confront more material financial stress
» For the second year in a row, approximately one-quarter of private colleges generated operating deficits.
" Over one-third (34\%) of small colleges generated operating deficits in fiscal 2016, up from 20\% in fiscal 2013.
» The proportion of moderately sized universities with operating deficits remained constant at $21 \%$ between fiscal 2015 and fiscal 2016, while the percentage of large comprehensive universities with operating deficits declined to $13 \%$ from $20 \%$ because of their stronger growth in revenue.
» Operating pressures will rise over the next two to three years, particularly for tuition-dependent colleges as net tuition revenue growth remains low and inflation increases.

[^0]Exhibit 3
Investment losses contributed to weaker operating reserves

Source: Moody's Investors Service

Exhibit 4
Twenty wealthiest universities hold more than two-thirds of total wealth in the sector

Source: Moody's Investors Service

Operating reserves relative to expenses declined modestly
for second consecutive year
» Fiscal 2016 marked the second year of modest declines in the spendable cash and investments to expenses ratio, in part driven by investment returns below endowment spending levels.
» Weak investment market returns in fiscal 2016 resulted in a median return on cash and investments of negative $1.8 \%$.
» Spendable cash and investments should grow modestly, in the 3\%-5\% range, for fiscal 2017 if investment returns for the fiscal year continue their current pace - in the $7 \%-9 \%$ range for many colleges through the third quarter. See Revenue mix drives divergence in private universities' performance for more details on private universities' revenues.

Wealth remains highly concentrated
» Wealth, however, remains highly concentrated with the 20 wealthiest universities consistently accounting for approximately $70 \%$ of total wealth in the sector.
» Comprehensive private universities experienced the strongest growth in spendable cash and investments $22.5 \%$ from fiscal 2012 to fiscal 2016 on an aggregate basis.
» This consistent gap in wealth will pose increasing competitive challenges for institutions that do not have the resources to invest in facilities, financial aid and other strategic initiatives at the same level as their larger and wealthier counterparts.

Exhibit 5
Sector-wide debt has increased only modestly
Total Sector Debt and Debt to Revenue for Sub-Sectors

Source: Moody's Investors Service

## Exhibit 6

## Small colleges have reduced capital spending

[^1]Debt burden remains generally stable across the sector
» Over the past five years, aggregate debt across the sector has grown by approximately 3\% per year to $\$ 95$ billion.
» For all sub-sectors, increases in debt have been in line with revenue growth. As a result, debt-to-revenue has held relatively steady across the sector at 0.72 times.
» Debt service continues to consume a manageable median $5.2 \%$ of operating expenses and median debt service coverage remains sound at nearly three times.
» Spendable cash and investments to debt declined modestly in fiscal 2016 due primarily to weak returns on cash and investments.
» The cushion of spendable cash and investments to debt should strengthen modestly due to favorable investment returns in fiscal to date 2017 and relatively stable debt.

## Divergence in capital spending continues

» Median capital spending (3-year average) declined for the sector over the last five years, with a median 1.48 times capital spending ratio in fiscal 2016 compared to 1.60 times in fiscal 2012, driven by a significant decline in capital investment by small private colleges and universities.
» Comprehensive private universities are able to increase or maintain capital investment levels. Most of the sector will continue spending at or above depreciation to replenish plant, but small private colleges and universities with weaker philanthropy and pressured cash flow will struggle to adequately invest in capital.
» The continuous decline in investment in facilities and equipment is reflected in the consecutive annual increases in the median age of plant to 13.3 years in fiscal 2016, from 11.9 years in fiscal 2012.

## Basis for medians

The medians are based on an analysis of audited fiscal 2016 financial statements for 255 US private universities, representing $98 \%$ of all rated entities. These medians primarily reflect audit year-ends of June 30, 2016. The median rating is A2.
» Appendix A: Fiscal 2012 - fiscal 2016 medians
» Appendix B: Fiscal 2016 medians by rating category
» Appendix C: Fiscal 2012 - fiscal 2016 medians by rating category
» Appendix D: Fiscal 2012 - fiscal 2016 medians by size of university
» Appendix E: Ratio definitions
Each year, the five-year range for medians is newly computed from a unique set of private universities. The exact set of universities used to calculate the medians in any particular year changes from year to year. Therefore, historical median results are likely to change somewhat from year to year.

The dollar amounts are nominal and not adjusted for inflation.

[1] Median values for monthly and annual liquidity to demand debt are derived from only those universities that have at least $\$ 1$ of demand debt outstanding.
[2] Since values represent the median university for each contribution ratio, each individual university's ratios will sum to $100 \%$, but the median values may not total $100 \%$.
[3] The median sample set of 255 universities include 16 universities with ratings below the Baa category.
Medians are based on FY 2016 financial data and fall 2016 enrollment data.

[1] Median values for monthly and annual liquidity to demand debt are derived from only those universities that have at least $\$ 1$ of demand debt outstanding.
[2] Since values represent the median university for each contribution ratio, each individual university's ratios will sum to $100 \%$, but the median values may not total $100 \%$.
[3] Moderate Sized Private Universities have total FTE enrollment greater than 3,000 and less than 10,000 with less than $15 \%$ of operating revenue from patient care revenue and grants \& contracts.
Medians are based on FY 2016 financial data and fall 2016 enrollment data.

[1] Median values for monthly and annual liquidity to demand debt are derived from only those universities that have at least $\$ 1$ of demand debt outstanding.
[2] Since values represent the median university for each contribution ratio, each individual university's ratios will sum to $100 \%$, but the median values may not total $100 \%$.
[3] Small Private Universities have total FTE enrollment less than 3,000 with less than $15 \%$ of operating revenue from patient care revenue and grants \& contracts. We have excluded medians for 40 Specialty Schools (e.g. stand-alone graduate or professional program schools, art schools, single-sex schools, or HBCUs) due to their disparate characteristics.
Medians are based on FY 2016 financial data and fall 2016 enrollment data.

## Appendix E: Ratio Definitions

| Age of Plant (\#, in Years) |  |
| :---: | :---: |
| Provides a rough indicator of institutional deferred maintenance as well as the operating efficiency of the existing plant facilities | Accumulated depreciation divided by annual depreciation expense |
| Annual Days Cash on Hand |  |
| Measures the number of days a university could cover operating expenses from unrestricted cash and investments that could be liquidated within one year | Annual Liquidity times 365 divided by Operating Expenses less annual depreciation expense and additional, unusually large non-cash expenses |
| Annual Debt Service Coverage (x) |  |
| Measures the ability of a university to make debt service payments from annual operations | The sum of annual operating surplus (deficit), annual depreciation expense, interest expense, amortization, and additional, unusually large non-cash expenses, divided by principal and interest |
| Annual Liquidity (\$) |  |
| Measures unrestricted cash and investments that can be liquidated within one year | Unrestricted operating funds available within one month plus unrestricted operating funds available within one year plus lesser of endowment funds available within one month and endowment funds available within one year or unrestricted board designated net assets and unrestricted working capital (or other unrestricted funds commingled with the endowment) |
| Annual Liquidity as \% of Total Cash \& Investments (\%) |  |
| Measures the portion of operating and endowment/long-terms accounts that is unrestricted and can be liquidated/spent within one year | Annual Liquidity divided by Total Cash \& Investments |
| Annual Liquidity to Demand Debt (\%) ${ }^{[1]}$ |  |
| Measures a university's ability to repay its demand debt from unrestricted cash and investments that can be liquidated within one year | Annual Liquidity divided by Demand Debt |
| Average MADS Coverage ( x ) |  |
| Measures average margin of protection for the maximum annual debt service payment from annual operations | Three-year average of operating surplus (deficit) plus interest and depreciation expenses plus additional, unusually large non-cash expenses, divided by the maximum annual principal and interest payment |
| Capital Expenses to Operating Expenses (\%) |  |
| Measures the percent of expenses from capital investment | Sum of interest and depreciation expense divided by Operating Expenses |
| Capital Spending ( x ) |  |
| Measures the pace of capital investment relative to the annual depreciation of assets | Purchases of property, plant and equipment (from statement of cash flows) divided by annual depreciation expense |
| Debt Service to Operating Expenses (\%) |  |
| Measures annual debt service burden on the annual operating budget | Annual debt service divided by Operating Expenses |
| Demand Debt (\$) |  |
| Measures the amount of demand debt that may need to be paid from liquid investments | Includes variable rate demand obligations, commercial paper, long mode put bonds, amounts outstanding under bank operating lines of credit, bank bonds and bank qualified loans with a demand feature |
| Educational Expenses per Student (\$) |  |
| Approximates the per student cost of a university's educational experience | Operating Expenses less research, patient care, and auxiliary expenses divided by Total FTE Enrollment |
| Gifts (\% of Total Revenue) |  |
| Measures reliance on gift revenue as a percent of total revenue | Unrestricted gift revenue divided by Operating Revenue |
| Grants and Contracts (\% of Total Revenue) |  |
| Measures reliance on grants and contracts as a percent of total revenue | Grants and contracts revenue divided by Operating Revenue |
| Government Appropriations (\% of Total Revenue) |  |
| Measures reliance on government support as a percent of total operating revenue | Government operating appropriations divided by Operating Revenue |
| Government Appropriations per Student (\$) |  |
| Compares government support to the size of the student body | Government operating appropriations divided by Total FTE Enrollment |
| Investment Income (\% of Total Revenue) |  |
| Reliance on investment income as a percent of total revenues | 5\% of three year trailing average of cash and investments divided by Operating Revenue |
| MADS Coverage (x) |  |
| Measures actual margin of protection for the maximum debt service payment from annual operations | Annual operating surplus (deficit) plus interest and depreciation expenses plus additional, unusually large non-cash expenses, divided by the maximum principal and interest payment |
| Monthly Days Cash on Hand |  |
| Measures the number of days a university is able to operate (cover its cash operating expenses) from unrestricted cash and investments that can be liquidated within one month | Monthly Liquidity times 365 divided by Operating Expenses less depreciation and additional, unusually large non-cash expenses |

Monthly Liquidity
Measures the amount of unrestricted cash and investments that can be liquidated within 30 days

Monthly Liquidity as \% of Total Cash \& Investments (\%)
Measures the portion of operating and endowment/long-terms accounts that is unrestricted and can be liquidated/spent within one month
Monthly Liquidity to Demand Debt (\%) [1]
Measures a university's ability to repay its demand debt from unrestricted Monthly Liquidity divided by Demand Debt cash and investments that can be liquidated within one month
Net Tuition per Student (\$)
Measures tuition and fees actually received per student, after scholarships

Non-Resident FTE Enrollment (\%)
Measures the portion of the university's entering class originating from outside the state Operating Cash Flow (\$)
Measures the amount of excess cash flow (or deficit) generated from annual Operating Revenue less Operating Expenses, plus depreciation, interest, and operating expenses
Operating Cash Flow Margin (\%)
Measures net income (before non-cash expenses) relative to operating Operating Revenue less Operating Expenses, plus depreciation, interest, and revenue to indicate the amount of cash a university generates to support its additional, unusually large non-cash expenses, divided by Operating Revenue strategic and capital investments
Operating Expenses (\$)
Measures size of operating budget Total operating expenses

Operating Margin (\%)
Indicates the excess margin (or deficit) by which annual revenues cover
operating expenses
Operating Margin Excluding Gifts (\%)
Measures the university's dependence on gifts to finance annual operations Operating Revenue, less gifts and total unrestricted operating expenses,
Operating Revenue (\$)
Indicates the scope of a university's operations

Other (\% of Total Revenue)
Reliance on other revenue as a percent of total revenue Other revenues divided by Operating Revenue Other Debt Like Obligations (\$)
Measures other debt-like obligations, including capitalized operating leases and unfunded pension obligations
Patient Care (\% of Total Revenue)
Reliance on patient care (and other health related) revenue as a percent of Patient care revenue divided by Operating Revenue total revenue
Primary Matriculation (\%)
Measures the preference of a student to attend a particular university Primary Selectivity (\%)
Measures the depth of a university's applicant pool Research Expense as a \% of Total Operating Expenses (\%)
Measures annual research expenses relative to the overall operating budget Research expenses divided by Operating Expenses
Return on Cash \& Investments (\%)
Measures growth in total financial wealth Percentage change in Total Cash \& Investments from the previous year
Return on Net Assets (\%)
Indicates direction and degree to which an institution has improved its total Increase (decrease) in total net assets, divided by average total net assets resource base
Spendable Cash \& Investments (\$)
Wealth that can be accessed over time or for a specific purpose

Operating Revenue, less Operating Expenses, divided by Operating Revenue divided by Operating Revenue less gifts

Total adjusted operating revenue as stated in audit, plus 5\% of trailing average three year cash and investments level, less net assets released for capital and investment income, less realized and unrealized gains or losses. Individual colleges may have other adjustments made to Operating Revenue based on additional information not included in audit

Capitalized non-cancelable operating leases and unfunded pension Number of students enrolling divided by number of applications accepted

Number of acceptances divided by number of applications
Unrestricted operating funds available within one month plus lesser of endowment funds available within one month or unrestricted board designated net assets and unrestricted working capital (or other unrestricted funds commingled with the endowment)

Monthly Liquidity divided by Total Cash \& Investments

The sum of gross tuition and fees revenue less scholarship discount and allowances less scholarship expense divided by Total FTE Enrollment from the prior year

Number of first year, full-time equivalent students from outside the institution's state divided by total first time, full-time equivalent enrollment additional, unusually large non-cash expenses Operating Revenue less Operating Expenses, plus depreciation, interest, and
additional, unusually large non-cash expenses, divided by Operating Revenue Total operating expensesOperating Revenue, less gifts and total unrestricted operating expenses,divided by Operating Revenue less gifts obligations (the sum of beginning and ending net assets divided by two)

Cash and investments plus funds held in trust by others plus pledges receivable reported in permanently restricted net assets, less funds permanently restricted by third parties

Spendable Cash \& Investments to Operating Expenses (x)
Measures the extent to which a university can rely on wealth that can be Spendable Cash \& Investments divided by Operating Expenses accessed over time or for a specific purpose to operate without earning any additional revenue
Spendable Cash \& Investments to Total Debt (x)
Measures the university's ability to repay bondholders from wealth that can Spendable Cash \& Investments divided by Total Debt be accessed over time or for a specific purpose
Spendable Cash \& Investments to Total Adjusted Debt (x)
Measures the university's ability to repay bonds and other obligations from Spendable Cash \& Investments divided by Total Adjusted Debt wealth that can be accessed over time or for a specific purpose
Three-Year Average Debt Service Coverage (x)
Measures the ability of a university to make debt service payments from The sum of three years of annual operating cash flow divided by the sum of annual operations over a three year period three years of annual debt service payments
Three-Year Average Gift Revenue (\$)
Measures philanthropic support committed to annual operations, capital and Total gift revenue (unrestricted, temporarily restricted, and permanently endowment over three year period restricted) for last three years, divided by three
Three-Year Average Gifts-per-Student (\$)
Compares gift revenue to the size of the student body
Three year average of gift revenue divided by Total FTE Enrollment
Three-Year Average Operating Margin (\%)
Smooths annual operating performance over a three-year period Three-year average of annual operating surplus (deficit) divided by three year average of Operating Revenue
Total Adjusted Debt (\$)
Measure of overall debt, including capitalized operating leases and unfunded Sum of Total Debt and Other Debt-Like Obligations pension liabilities
Total Adjusted Debt to Operating Revenue (x)
Measures total adjusted debt relative to operating revenue Total Adjusted Debt divided by Operating Revenue
Total Cash \& Investments (\$)
Measures the wealth of a university and its affiliated foundation(s) Total cash and investments of a university and its affiliated foundation(s)
Total Cash \& Investments per Student (\$)
Measures costs of educating an institution's students
Total Cash \& Investments divided by Total FTE Enrollment
Total Cash \& Investments to Operating Expenses (x)
Measures coverage of annual operating expenses by wealth Total Cash \& Investments divided by Operating Expenses
Total Cash \& Investments to Total Adjusted Debt (x)
Measures coverage of total adjusted debt by assets that generate investment Total Cash \& Investments divided by Total Adjusted Debt return
Total Cash \& Investments to Total Debt (x)
Measures coverage of total debt by assets that generate investment return Total Cash \& Investments divided by Total Debt
Total Debt (\$)
Measures direct obligations of a university and its affiliated foundation(s) The par amount of bonds, notes, commercial paper, capital leases, bank loans, and draws upon lines of credit
Total Debt to Cash Flow (x)
Measures the ability of a university to repay its debt from the profitability of Total Debt divided by Operating Cash Flow its operations
Total Debt to Operating Revenue (x)
Measures debt relative to operating revenue $\quad$ Total Debt divided by Operating Revenue
Total Debt to Total Capitalization (x)
Measures portion of the balance sheet financed by debt Total Debt divided by the sum of total net assets plus Total Debt
Total FTE Enrollment
Measures size of university's programs and student population Total fall full-time equivalent enrollment
Total Gift Revenue (\$)
Measures philanthropic support for annual operations, capital, and Total gift revenue (unrestricted, temporarily restricted, and permanently endowment restricted)
Total Tuition Discount (\%)
Measures the amount of tuition revenue funded by unrestricted institutional Total scholarships and fellowships divided by gross tuition and fee revenue resources as well as restricted endowments and external sources
Tuition and Auxiliaries (\% of Total Revenue)
Measures reliance on tuition and auxiliaries as a percent of revenue Net tuition and auxiliary revenue divided by Operating Revenue
Variable Rate Exposure - Before Swaps (\%)
Measures the portion of direct debt issued in a variable rate mode

Sum of par amount of debt outstanding issued as variable rate securities, divided by Total Debt

All information contained herein is obtained by MOODY's from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's publications.
To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.
To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.
NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.
Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from $\$ 1,500$ to approximately $\$ 2,500,000$. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than $5 \%$, is posted annually at www.moodys.com under the heading "Investor Relations - Corporate Governance - Director and Shareholder Affiliation Policy."
Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61003399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94105136972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors. It would be reckless and inappropriate for retail investors to use MOODY'S credit ratings or publications when making an investment decision. If in doubt you should contact your financial or other professional adviser.
Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.
MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000.
MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
